Inspecting Engineer Role

Start: Immediate

Location: Hull

Salary: Negotiable (depending on experience)

Company profile:

We have an exciting opportunity for a talented and highly motivated Engineer.

GGP Consult have been operating for the last 29 years with continued success - we are a world class Consulting Engineers, based in Hull and York, providing Civil & Structural Engineering and Architectural Design in the UK as well as in over 50 countries worldwide, with a team of hard-working skilled members who are all dedicated to working towards the same academic goal.

Following on from a very successful 2023 and with a rapidly growing workload already secured for 2024, we are now looking to expand our teams.

Job Summary

We are looking for an Inspecting Engineer.

The role will see you reporting straight to Directors and the Senior Inspecting Engineer.

Details of the role are as follows:-

- The majority of the work will be based in the Humber Area - but some will be required nationwide.
- You will be capable of carrying out inspections on existing industrial structures and use the client developed method of reporting.
- A good knowledge of inspections and/or steel structures is essential - other material knowledge such as concrete, timber, and masonry would also be advantageous.
- You will have a minimum of a HND/HNC level education in a relevant engineering subject.
- Also preferable is a minimum of 3 years post education certification in relevant inspecting or a Civil/Structural Engineering role.
- A knowledge of MS Suite software is useful.
- A full UK Drivers licence is essential.

We have an immediate need to fill this post, and work guaranteed for the remainder of 2024.

GGP are looking to expand their Inspection Team, and you will be a key part of this growth, making good relationships with existing clients to develop Inspection work and other work-streams beyond Structural Inspections.
