

Hotel & Leisure

GGP have designed various Hotel and Leisure facilities both within the local area and nationally. The most recent of which is a DoubleTree by The Hilton Hotel Group.

GGP have been commissioned by various hotel and leisure companies over the years including Clarion Hotels, Bestwestern, The Ferguson Fawsitt Arms and most recently The Hilton.

GGP were engaged by The Ferguson Fawsitt Arms to develop a new 10 bedroom country lodge to the rear of a traditional village public house in Walkington, East Yorkshire. Each of the 10 bedrooms contained an en-suite with one of the rooms being a Bridal Suite.

An existing derelict psychiatric unit in Sligo, Ireland was converted into a new 5 star hotel complex. The project covered the restoration, refurbishment and conversion of the existing building and the construction of a new extension. The hotel included a 167 bedroom hotel, leisure complex, spa, and conference facilities.

GGP were appointed by Hessle Golf Club to produce a feasibility scheme for the refurbishment of the existing clubhouse. The scheme included a new pitched roof to replace the existing flat roof, new windows and doors, new external cladding, a new glass and stainless steel balcony and an internal refurbishment.

Architectural Services

- Feasibility/Concept Design
- BIM – Building Information Modelling
- Revit 3D Detailing
- 3D Visualisations and Walkthroughs
- Interior Design
- Planning Applications
- Building Regulations Applications
- Detailed Design
- Tender Packages
- Site Supervision
- Budget Costings
- Design and Build Support
- Sustainability

Engineering Services

- Civil Engineering
 - All Civil Design
 - Flood Risk Assessments
 - Site Investigations
 - Drainage
 - Highway Design
- Structural Engineering
 - All Structural Design
 - Structural Assessments
 - Seismic Design
 - Fabrication Detailing – Tekla

- Rail Engineering
- Marine Engineering
- 3D Laser Scanning Surveys
- Topographical Surveys
- CDM Co-ordination
- Expert Witness
- Reverse Engineering
